VISION - We envision a world without homeless, abused or unwanted dogs and cats where animals live in a nurturing environment that provides adequate care, food, safety and shelter.

MISSION - To rescue, rehabilitate and re-home injured, abused or stray cats and dogs. To provide resources for our community and educate them on responsible pet ownership.

Look for us on:

Scooter, Therapy Cat book to benefit medical expenses at AP.

By Betsy Kennon VMD

This true story begins when a busy vet hears a voice in her head telling her not to euthanize a severely paralyzed stray cat that had been brought into the clinic where she worked in the wealthy suburb of Fox Chapel near Pittsburgh, Pennsylvania. Though she was some years away from retirement, Dr. Betsy Kennon had decided that when she did, she would put her knowledge and skills into training and handling a therapy dog. But it seems the Creator wanted all this to happen sooner rather than later. And it would be this stray cat who had somehow lost the use of his back legs but possessed not only therapeutic qualities but nearly miraculous powers.

Scooter, who had been fitted with a cart to accommodate his useless back legs, from the beginning seemed to understand its value. "He never balked at going into the cart and once inside, never made

a sound. He was eager to get to work." Scooter would snuggle up to a patient and the warmth of his little body would awaken hands, eyelids, voices, even spirits that had been crushed by one catastrophe or another.

Scooter, Therapy Cat chronicles some of Scooter's true miracles and introduces readers to the many patients who came to know and love Scooter for the quiet moments of comfort, courage and happiness he brought them.

The book is available for sale in The Store at the shelter or on Amazon or Barnes & Noble. <https://wordassociation.com/non-fiction%20book%20page/scooter.html>

100% of the proceeds go to pay for medical costs for animals at the shelter.

Duke

This handsome boy came to us as a stray. He can be skittish around new people but once he's comfortable he will show his puppy-like personality. Duke knows his basic commands and loves zooming around the yard to play fetch and loves car rides. He has some over protective tendencies that we have encountered a few times so placing him in a single human household would benefit him tremendously.

Rolo

Rolo is a beautiful cat. She likes her own space and will come to you when she's ready for affection. After a few pets Rolo can get slightly over stimulated and will let you know when she's had enough. She does great with the other cats in the room but she likes to do her own thing. Rolo loves to take Cat naps in her favorite hiding spots and look out the windows for birds.

Shadow

Shadow came in as a pregnant stray. Her babies were adopted but unfortunately Shadow has already been here several months. She loves people, playing with her toys and LOVES being outside. Shadow thinks she's a total lap dog. She is very high energy so would benefit from being in a home with someone who can give her the exercise and proper training she needs!! She would also need to be the only pet in the home.

Thalia

This senior lady is estimated to be almost 13 years old, she may look tiny and frail but she has a mighty personality. Thalia is a cat that will need a quiet single pet home as she does not do well around other animals. She does appreciate affection from time to time but enjoys doing her own thing. Thalia also loves bird watching! She would love to find a good retirement home.

Brownie

One year old Brownie is a high energy pup who is still learning his basic commands and leash manner. With a dog savey person and the right amount of patience and basic training Brownie will make the perfect addition into someone's home. Brownie loves playing fetch, zooming around the yard and is super treat motivated. He will need to be the only pet in the home and have no children!!

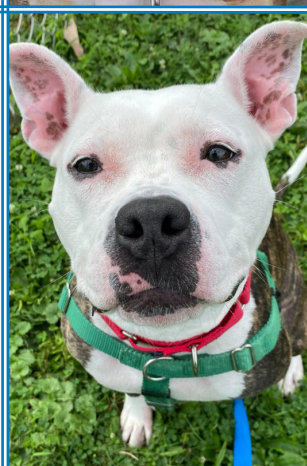

Art

He's a friendly and affectionate old man estimated at around 10 year old. The beauty mark on his chin doesn't cause him any pain thankfully.

Art may prefer nap time over play time but he has so much love left to give. Senior cats can steal our hearts when we least expect it, we know Art did.

Riley

Riley arrived as an emaciated stray and you could tell by looking at her that she's had a rough start in life. Her hardships never dampened her spirit however! She is such a loving and affectionate dog, despite everything she's been through. After just a few short weeks, Riley already looks so much better! She's gained a healthy amount of weight and you would never know the ordeal that she faced in her previous life.

Maple

Maple is a gorgeous brown and white tabby estimated to be around one year old. She has quite the mighty personality. Maple loves to play and she does great with the other cats in the free-roam cat room.
